Cut Brick Products by Colonial Brick are created from authentic antique Chicago brick and are a 100% reclaimed material

Perfect in both commercial and residential construction for interior or exterior use, our cut brick Veneers, Corners, Pavers, Queens and Inside Cuts offer a true brick appearance with the ease of tile installation.

Cut Brick Corners

These specialty veneers are essential for wrapping the brick around corners

Queen Cuts

Queen Cuts are a skinny, highly versatile cut that can be used as a paver or a thicker wall veneer, and are ideal for herringbone floor patterns

Brick Veneers

Our veneers are precision-cut for uniformity yet still provide the natural imperfections typical in brick production

Pavers

Veneer pavers can be laid in a classic herringbone pattern and used indoors as flooring or outdoors in warmer climates
